### DANIELSON

The members of the Greek Orthodox community of Danielson have issued a formal appeal for funds to meet the cost of erecting Trinity church, which is being completed on Water street. Contributions, large or small, will be welcomed by the committee, and that many will give already has been indicated by generous gifts of money. It is hoped to raise between \$3,000 and \$4,000, so that the church may be free from debt from the first. Those who subscribe \$50 will be termed Donors, those who give \$150 will be termed Benefactors and those who give \$250 will be termed Greater penefactors, and their names will be placed on a marble tablet in the church for perpetual commemoration. It is planned also to hold a yearly ervice in the church for all of these. The organization of the church solety has been duly and also to hold a yearly ervice in the church for all of these. Private Moran was one of the first selected men to go into service from this district.

The organization of the church so-clety has been duly and regularly made and its finances are being conducted in legal form. Gifts already made to the church society include \$150 from Rey, Richard Hatch, whose home is in Brooklyn, and \$250 from the Connecticut Mills company.

Mill men here are pondering deeply over what is to become of their or-ganizations in case the government continues to draft as heavily as it has in the past few months from among their skilled personnel. Already the manufacturers are facing employe problems that are mighty difficult of solution, and the prospect is that con-litions will be worse before they are better. Heretofore the government better. Heretofore the government has declined to grant deferred classifications only in rare instances to skilled mill workers, and as a result such skilled workers are very scarce

Business men are also, though in lesser degree, facing the same proposi-tion. Girls are now being sought for work in grocery stores and in many other lines of mercantile endeavor that peretofore have been exclusively occupied by men, this statement applying to Danielson and vicinity.

To many housekeepers, the rule that obligates them to buy as much of substitutes as they do of wheat flour seems a wasteful one, inasmuch flour seems a wasteful one, masmuch as these ordinarily prudent housewives are accumulating heavy stocks of cercals of various kinds and much of it cannot be used and is going to the cannot be used and is going to the same who evidently, he had gotten the same who evidently he had gotten the same who had been who evidently he had gotten the s it cannot be used and is going to waste. That "We boys over 31" are taking an amplified interest in the war was quickly patent on Monday to anyon-who talked with them. The action o congress in making certain the advance of the draft age has given these men a keener interest in things "overthere." To their credit, however, it may be said that they are not flinching and many of them from this town are ready and willing to enter the service. Their attitude is summed up in the terse words, "Let them call and we'll be there."

Alberick Dufeault, 34, a son of the decessed, was questioned at congth on Monday, by Cartain Payer relative to

Monday by Captain Ryan relative to the circumstances surrounding Mrs. the circumstances surrounding Mrs. Defeault committing suicide. Captain Ryan stated that Dufeault had stated to him that he had a little disagreement with his mother on Sunday afternoon, but though he did not recalt exactly what it was all about he did not consider it of a serious nature. When he had retired for the night, at about 11 o'clock, he believed that his mother was still sitting out on the doorsteps, where he had last seen her, at about 3 o'clock.

Monday morning at 6 o'clock, when he arose, he found that his mother's room had not been occupied during the room had not been occupied during the night nor vars she about the house. He started at once for a relative's, to inquire if she had spent the night there, but did not inquire about the neighborhood for her. After he learned that she had not been to the rela-tive's he went along the river bank in the north end of the city to pick wild cherries and while so engaged came upon the body of his mother in the river.

He came back to the Providence street section and made the facts known and the body of Mrs. Dufeault was removed by Narcisse Faille, Du-feault is to be questioned by Coroner Arthur G. Bill of Danielson relative to all the circumstances surrounding the cide. Mrs. Dufeault was a mative of Canada. She had lived in Putnam for a long time.

A motor trip across the continent, iting with relatives in the town of Pomfret. While in Putnam, Monday afternoon, Mr. Jean stated that there, is nothist at all extraordinary about run across the United States in seee days of good roads and good cars-just a case of keep feeding gas to the engine and letting the car roll along. From Los Angeles to Pomfree Mr. Jean covered just an even 3,500 miles. He punctured two tires on the trip, and that constituted his entire car trouble for the journey. Mr. Jean says that his party, including in his car, his wife and two children, slept every right in a hotel and were never on the road later than 7 p. m. He made the trip in a little less than three weeks and on the majority of days did not drive over 159 miles, though on the last day his mileage was 236, and it averaged more than 150 a day east of Chicago.

There is no real obstacle to the en-owment of a transcontinental motor rip. Mr. Jean says. The idea that being continued for six months. there are 100-mile desert stretches without opportunity to get gas or oil or water is all bosh. There are garages everywhere, he states, and plenty of gas, which sometimes costs more than one pays in the east. At a western station Mr. Jean paid ents a gallon but that was only an
